

FIG. 1 is a block diagram of a system for controlling a vehicle. The system includes a vehicle 10, a control unit 11, a sensor 12, a display 13, a user interface 14, a communication unit 15, a power source 16, a memory unit 17, a processing unit 18, and a network 19. The vehicle 10 is connected to the control unit 11 via a communication unit 15. The control unit 11 is connected to the sensor 12, the display 13, the user interface 14, the memory unit 17, and the processing unit 18. The sensor 12 is connected to the control unit 11 via a communication unit 15. The display 13 is connected to the control unit 11 via a communication unit 15. The user interface 14 is connected to the control unit 11 via a communication unit 15. The memory unit 17 is connected to the control unit 11 via a communication unit 15. The processing unit 18 is connected to the control unit 11 via a communication unit 15. The network 19 is connected to the control unit 11 via a communication unit 15.
